

Python GUI Calculator

USING TKINTER

NAME: JYOTI

CLASS: DATA ANALYTICS AND AI

Introduction

- ▶ This project is a GUI calculator using Python
- ▶ Built using Tkinter library
- ▶ Performs basic arithmetic operations

Features

- ▶ Display screen for input/output
- ▶ Buttons for numbers & operations
- ▶ Addition, Subtraction, Multiplication, Division
- ▶ Clear (C) and Equal (=) functionality

Tools Used

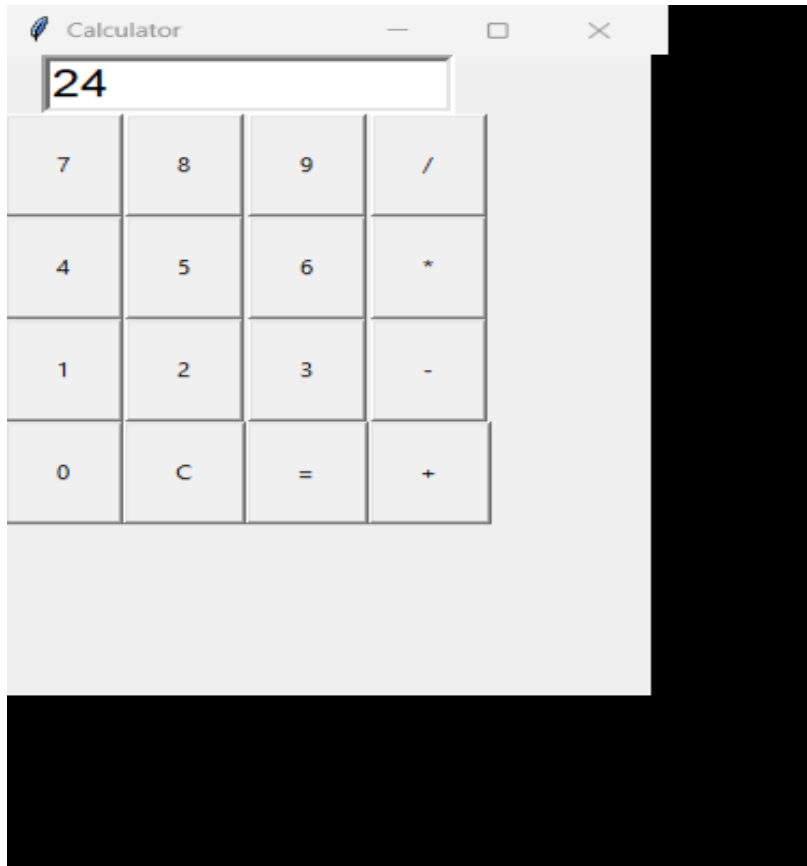

- ▶ Python
- ▶ Tkinter
- ▶ Visual Studio Code
- ▶ GitHub

Code Explanation

- ▶ `press()` → adds input
- ▶ `equal()` → evaluates result
- ▶ `clear()` → resets screen

Output

☞ Here is the screenshot of the Calculator

Conclusion

- ▶ Learned GUI development
- ▶ Improved Python skills
- ▶ Understood Tkinter basics
